

About us

Aioi Nissay Dowa Insurance Company of Europe SE is a European public limited company headquartered in Luxembourg and active on the German market as an insurance company in the private and commercial customer sector with its headquarters in Ismaning. The company is part of one of the largest insurance groups in the world, MS&AD Group Holdings, Inc., an insurance partner of the Toyota organization and a major shareholder of Box Innovation Group Limited, one of Europe's leading telematics providers.

As the insurance partner of Toyota, one of the largest automobile manufacturers in the world, we develop and distribute outstanding insurance and financial services products for brands such as Toyota and Lexus as well as specialised products for our car dealership organisation.

Our European IT organisation provides internal IT services throughout Europe for approx. 1,000 colleagues (f/m/d).

You still organize your meeting yourself? You are not too good to write hands on your documents and plans yourself ? And you know that as a project manager you have to be uncomfortable with deadlines?

But you are also on the road technically and have experience in migrating data center infrastructure and/or platform services?

Then our newly created position

Project Manager IT Infrastructure (Platform) Services (m/f/d) **for our internal *Platform Services Transformation Project***

is exactly the right thing for you!

Your tasks:

- Overall supervision of our main Data center-/Platform Services transformation project including required/resulting sub-projects from A to Z
- First contact person (m/f/d) for our (internal) customers, (internal) stakeholders and our IT Engineers concerning all project-related topics within the field IT Infrastructure (Platform) Services

- Ensuring that the given parameters with regard to scope, quality, time and cost are achieved within the various (sub-)projects
- First contact person (m/f/d) for escalation management
- Definition of milestones and working packages, together with involved technical resources
- Controlling of project budget
- Definition, controlling and assignment of project resources (time and involved people)
- Risk analysis, monitoring and mitigation in terms of time, quality and costs
- Identifying needs for and arrangement of project-related workshops and meetings (e.g. scheduling, coordination of participants, preparing agenda, meeting minutes)
- Regular reporting with regards to milestones, risks, decisions, required actions and status of agreed project deliverables to management and steering committee

Your profile:

- Profound experience as a project manager (Professional level, 5 years +); Project management qualification (PMP, Prince 2 or equivalent) desirable
- Ability to work in a mainly waterfall driven project environment with agile elements
- Experience in supervision of Data center migration and consolidation projects especially with focus on traditional Infrastructure solutions, services and environments
- Knowledge in transforming business services onto modern technologies and platforms hosted in off-premise and managed services platforms
- Understanding of and ability to visualize and build technology architectures for new as well as reverse-engineered environments
- Experience working in a process driven environment (ITIL Foundation welcome)
- Hands-on & dig-deep mentality
- English: Business fluent in spoken and written (min. Level B2); German language skills are optional
- Highly committed and willing to travel (about 50 %)

Some of what we offer:

- Security in an established medium-sized insurance company thanks to permanent employment
- An open and friendly working atmosphere
- Flat hierarchical structure and open door policy
- Opportunity for mobile working
- Company benefits (capital-forming benefits, pension scheme, supplementary health insurance, occupational disability insurance)
- Christmas bonus
- 31 days' annual leave plus 3 days' leave
- and much more

Are you looking for a new challenge with international flair?

Please send us your complete documents and state your **salary expectations** and earliest possible **start date**.

We look forward to meeting you!
