

About us

Aioi Nissay Dowa Insurance Company of Europe SE is a European public limited company headquartered in Luxembourg and active on the German market as an insurance company in the private and commercial customer sector with its headquarters in Ismaning. The company is part of one of the largest insurance groups in the world, MS&AD Group Holdings, Inc., an insurance partner of the Toyota organization and a major shareholder of Box Innovation Group Limited, one of Europe's leading telematics providers.

As the insurance partner of Toyota, one of the largest automobile manufacturers in the world, we develop and distribute outstanding insurance and financial services products for brands such as Toyota and Lexus, as well as specialised products for our car dealership organisation.

Our European IT organisation provides internal IT services throughout Europe for approx. 1,000 colleagues (f/m/d).

Together with you we would like to successfully develop and expand our Group IT Security Management and our SOC!

We are therefore looking for you as a hands-on personality in the newly created position of

IT Security Specialist (m/f/d)

Your tasks:

- Development, implementation and continuous improvement of mechanisms for the detection of anomalies and attacks
- Design and implementation of processes for the review, evaluation and prioritization of the alarms of our SIEM
- Analysis, processing and solution of IT security incidents
- Operative handling of security-relevant tickets
- Overview of possible and current threats and vulnerabilities
- Analysis and evaluation of technical security incidents

- Monitoring of compliance rules

Your profile:

- Successfully completed studies in business informatics, computer science or a comparable education
- Relevant practical knowledge in the area of IT Security Management
- Knowledge of relevant laws, standards and best practice approaches for IT Security Management (NIST, ISO 27001/2, etc.)
- Profound experience in reviewing multiple log formats and using vulnerability scanning tools
- Practical experience in the field of penetration tests
- Understanding of perimeter security controls – firewall, IDS/IPS, network access control and network segmentation
- Knowledge of SOC processes and SIEM monitoring
- Operational knowledge of IT security products and topologies as well as network/router protocols and technologies from leading providers
- English: Business fluent in spoken and written (min. Level B2); German language skills are optional

Some of what we offer:

- Security in an established medium-sized insurance company thanks to permanent employment
- An open and friendly working atmosphere
- Flat hierarchical structure and open door policy
- Opportunity for mobile working
- Company benefits (capital-forming benefits, pension scheme, supplementary health insurance, occupational disability insurance)
- Christmas bonus
- 31 days' annual leave plus 3 days' leave
- and much more

Are you looking for a new challenge with international flair?

Please send us your complete documents and state your **salary expectations** and earliest possible **start date**.

We look forward to meeting you!
